

The background is a solid yellow color. On the left side, there is a grid of semi-transparent yellow circles. A large, faint yellow arrow shape points from the left towards the right, starting from the top-left and bottom-left corners and meeting at a point on the right side.

# **Sustainability**

# Our Carbon Neutral Head Office

In 2022, we relocated and consolidated two existing premises, to our new Head Office. The, will reduce our environmental impact and utilise many energy efficient initiatives to include:

- Solar panels to provide electricity
- Air source heat pumps
- Heat recovery systems
- Optimum building design for insulation
- Electric charge points for vehicles
- LED lighting units & responsive lighting
- No gas input to the building
- All hot water & heating systems electric

# OUR GOAL IS TO ACHIEVE NET-ZERO CARBON BY 2030

## The EnviroVent Roadmap to **Net-Zero**

### Zero carbon head office

100% reduction in carbon  
= Zero Carbon

### On-going sustainability actions

envirovent.  
Net-Zero Carbon  
**2030**

### Electrification of the fleet

48.5% reduction  
in carbon

### 5,000 trees planted each year

Offsetting 995  
tonnes of carbon

We will offset emissions saving 1,198 tonnes of carbon over 10 years, resulting in being Net-Zero Carbon by 2030.

At EnviroVent, the “enviro” in our name is not just about improving the environment of our customers, but also improving our environmental impact on the world. We want to take responsibility to proactively tackle climate change, and are proud to commit to Net-Zero by 2030!

# PLANET-FRIENDLY VENTILATION THAT CHANGES YOUR WORLD

At EnviroVent, the “enviro” in our name is not just about improving the environment of our customers, but also improving our environmental impact on the world.

Here’s what we’re doing at EnviroVent to tackle climate change and make a difference.

## Our Working Environment

We practice what we preach and the environment where we work incorporates numerous energy and resource-saving measures that combine to really help lower our carbon footprint.

## Our Daily Operations

How we work is vitally important to the environment. There are many energy, fuel and resource-saving measures and techniques we have introduced over the years to improve our sustainability.

## Our Sustainable Products

We have invested heavily in developing and manufacturing a wide range of unique environmentally friendly ventilation systems. We are also committed to recycling products wherever possible.

## Our Incredible Team

Our colleagues are as passionate about the environment as we are as a company. The Green Warrior Team brings environment enhancing ideas from anyone in the business and puts them into action.

## Our Tree Planting

In our new planet-friendly initiative, we aim to plant 5,000 trees every year, with our tree planting partner MoreTrees. By doing this, we could offset our carbon emissions within 10 years.
